SVS Dowgate Wealth European Growth Fund Class R Accumulation Shares [ISIN: GB00BN6R9196] Class R Income Shares [ISIN: GB00BN6R9089]

The Fund is a sub-fund of The Dowgate Wealth Funds ICVC.

The Authorised Corporate Director of the Fund is Evelyn Partners Fund Solutions Limited trading as St Vincent St Fund Administration, part of the Evelyn Partners group.

Objectives and investment policy

The Fund aims to provide long term capital growth over periods of 5 years or longer.

In normal market conditions, at least 80% of the Fund will be invested, directly or indirectly, in the shares of companies listed in Europe (excluding the UK).

The Fund may invest in the shares of large, medium and smaller sized companies across all industry sectors although it is expected that there will be a bias towards smaller sized companies (companies which form the bottom 20% of the European market by market capitalisation). The exposure to different sized companies may change over time according to economic and stock market conditions.

Up to 10% of the Fund may be invested in collective investment schemes (which may include those managed or operated by the ACD and its associates) which offer exposure to European companies.

Up to 10% of the Fund may be invested in investment trusts, which offer exposure to European, as well as global, companies.

Up to 20% of the Fund may also be invested in:

- other globally listed transferable securities
- shares of unlisted companies that are expected to become listed within a one to two year timeframe
- cash and near cash, deposits and money market instruments

Income Shares: Any income the Fund generates will be paid out to you.

Accumulation Shares: Any income the Fund generates will be reinvested.

You can buy and sell shares on any working day in London.

The Fund is actively managed, which means that the manager has discretion over the composition of its portfolio, and the Fund is not tracking a benchmark nor is the Fund constrained by the value, price or components of a benchmark or any other aspect. The Fund is also not aiming to match or exceed the return of any benchmark.

For full investment objectives and policy details please refer to the Prospectus.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards,
lower risk

Typically higher rewards,
higher risk

- The Fund is in a higher category because the price of its investments are expected to rise or fall frequently and more dramatically than some other types of investment. The category shown is not guaranteed to remain unchanged and may shift over time. Even the lowest category does not mean a risk-free investment.
- The price of the Fund and any income from it can go down as well as up and is not guaranteed. Investors may not get back the amount invested. Past performance is not a guide to future performance.
- Investment trusts and closed ended funds may borrow to purchase additional investments. This can increase returns when stock markets rise but will magnify losses when markets fall. The value of an investment trust or a closed-ended fund moves in line with stock market demand and its share price may be less than or more than the net value of the investments it holds.
- The Fund may hold a limited number of investments. If one of these investments falls in value this can have a greater impact on the Fund's value than if it held a larger number of investments.
- The Fund may invest in securities not denominated in sterling, the value of your investments may be affected by changes in currency exchange rates.
- For full details on risk factors for this Fund, please refer to the Prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

Ongoing charges	1.31%
-----------------	-------

Charges taken from the Fund under specific conditions

Performance fee	NONE
-----------------	------

- The ongoing charges figure is estimated because the share class has insufficient track record for us to calculate it exactly. The ongoing charges figure may vary from year to year and will exclude the costs of buying or selling assets for the Fund (unless these assets are shares of another fund).
- A dilution levy may be charged on a purchase or sale of shares in the Fund in some cases. It may be necessary to reduce the difference between the cost of buying or selling the Fund's investments and the Fund's mid-market share price. Any dilution levy charged will be paid into the Fund.
- The Fund's annual report for each financial year will include detail on the exact charges made.
- For further information about charges, please refer to relevant sections in the Fund's Prospectus.
